Iâll never go back again
This was the last time
I couldnât feel a thing
Walking down those streets that once
were mine
Canât this ship just hit a rock
It never comes ashore
Iâll never go back again

Some things vanish
Because I was lazy
I never saw you
Slide away

Iâll never go back again
This was the last time
Lonely, broke and lovesick
In a disco under the sea
I gambled all my money, all my friends
the whole country
On a ship to a no manâs land

Some things vanish
Because I was lazy
I never saw you
Slide away

We got to take back time you know
