Sports injuries are really, really bad
Sports injuries can really make you mad
Sports injuries can really make you sad
Sports injuries are really, really bad
Sports injuries can make you rave and rant
Sports injuries can be often or scant
Sports injuries can happen to you Aunt
Sports injuries can make you rave and rant
Sports injuries are something that I hate
Sports injuries can be early or late
Sports injuries can make you clean your plate
Sports injuries are something that I hate
Sports injuries can make you call for help
Sports injuries can happen eating kelp
Sports injuries can make your puppy yelp
Sports injuries can make you call for help
