If you won't change  
If you won't change, you'd better run away

My so called sense of humour  
You say it's just a rumour  
You'd never see me laugh  
When you two walk away  
Why do you stick together  
The coward and his feather  
Can't do without the part  
That's eating them away

Though it's easier said than done  
I am not the only one

[Chorus]  
But I can't wait so run away  
Run away and stay  
I'm married to this fatal memory  
And I can't wait so run away  
Run away and stay

If you won't change  
If you won't change, you'd better run away

Golddiggers are united  
You stand there undecided  
Between my love and all that foreign currency  
Don't want your party line  
Don't wanna own or call you mine  
Is there no answer but some painful surgery

Though it's easier said than done  
I am not the only one

[Repeat Chorus]

If you won't change  
If you won't change, you'd better run away  
(You'd better run away)

[Repeat Chorus]  
If you won't change  
If you won't change, you'd better run away
