City roof top, summer night
In your tank top, rainbow styling
To the beatbox, spinning 'round
And you looked so cute there, rainbow styling

Sun rising, still asleep
Lay beside you, hear you breathing
Last night, girl, like a dream, hey
Never felt so good, sleepy smiling

All this love, saved up for nothing
I've never felt so blue
And all this love, rainbow styling
All this love saved up for nothing
And this'll do me no good
And all this love, rainbow styling

Everyday that summer by your side
And it all just seemed everlasting
But then you told me you would move away
And you looked so cute there, you were crying

All this love, saved up for nothing
I've never felt so blue
And all this love, rainbow styling
All this love saved up for nothing
And this'll do me no good
And all this love, rainbow styling

All this love, saved up for nothing
I've never felt so blue
And all this love, rainbow styling
All this love saved up for nothing
And this'll do me no good
And all this love, rainbow styling
