#### Verse1

Trust me when i say , you will cry  
Stop to be mean with your God  
Stop to be pathetic with your life  
Look at you on the mirror and try to change  
World is whack and great for you  
I can't understand where is the joke  
Some people live the poverty  
No one can fix this reality

#### Chorus

contradictions in logic  
contradictions in public

#### Verse 2

Countless mistakes you did  
Even if you thought was right  
Dig your trench if you think  
Is it the best choice you ever made  
Many troubles try to collapse you  
This is a big game without premium  
Everything sometime seems absurd  
Absurd is your life on the roof
