Who can mend a world that's broken  
Who can wash away the tears  
I don't wanna see the shadows  
I don't wanna know the fear

Far away from my horizon  
So unlike the world I know  
I don't wanna hear you crying  
I just wanna bring you hope

On a night like this  
I make a wish  
For the people in the world  
'Cause everywhere  
From far and near  
Somewhere behind our different names  
I believe we feel the same

Trees in white outside my window  
Every star still shines for you  
We all need a little sunshine  
And dream is all that I can do

On a night like this  
I make a wish  
For the people in the world  
'Cause everywhere  
From far and near  
Somewhere behind our different names  
I believe we feel the same

I'm gonna save a little prayer  
I'm gonna show you that we care  
I'm gonna keep you in my heart tonight  
I'm gonna struggle on your side

On a night like this  
I make a wish  
For the people in the world  
'Cause everywhere  
From far and near

Somewhere behind our different names  
I believe we feel the same
