Feels like there's something in the air tonight  
And in the beat of my heart,  
The music brought me back to life  
Oh let's forget about tomorrow  
Oh let's forget all our troubles  
I'll stay with you  
Right here with you  
Till the sky comes falling down

I don't wanna close my eyes  
I don't wanna sleep tonight  
'Cause I've been waiting  
I've been hoping for this moment all my life  
Let's stay awake tonight  
'Cause I've been waiting  
I've been hoping for this moment all my life

Let's stay awake, ohâ€¦  
Let's stay awake, ohâ€¦  
So when the night turns to day we will still be awake

Oh let's forget about tomorrow  
Oh let's forget all our troubles  
I'll stay with you  
Right here with you  
Till the sky comes falling down

I don't wanna close my eyes  
I don't wanna sleep tonight  
'Cause I've been waiting  
I've been hoping for this moment all my life

Let's stay awake  
Let's stay awake
