### **"I Wanna B"**

Visit "[I Wanna B](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Every night on the beach something's going down  
Every night on the beach people get around  
Everybody is dancing, everybody is moving  
With the moon above till the morning light

I wanna be right there where the sun goes down  
I wanna be right there, people get around  
I wanna be right there, cool and have some fun  
And there'll be sun, sun, sun, sun, sun  
High above the ground  
And we'll have fun, fun, fun, fun, fun  
When the music sounds

To the rhythm of love and the steady beat  
Never get enough, set your body free  
Don't you know that the night time  
Yeah, it's always the right time  
With the moon above till the morning light
