Verse 1:

From the start
We were best friends
Now here we are
In lovers land
Take my hand
And show me the place
We can rush
If that's the case
Now that we're here
Guide me around
Will you pick me up
If I fall down
Cuz you know I will
Trip over your love
Another reason why
I thank god above
Cuz this is deep temptation
This is temptation
And you make me wanna do some things
Temptation Oh Oh
You make me wanna

Verse 2:

I'm falling for you
And you know it's true
The way you look
And the things you do
Turns me on
Drive me crazy
Baby I wanna be yo lady
Don't be frontin'
Or actin' shady
Cuz I know you want
Some of this baby
You don't understand
The way I'm feeling
I'm like a bruise
Ready for healing
Or a thief
Ready for stealing
Mabe a serial killer

Ready for killing
This is deep temptation
2x Chorus-
2x 1st Bridge:
You're getting closer and closer
And you're taking over
Almost got the best of me
And this is deep temptation
2x 2nd Bridge:
You need to bring it on
Otherwise I'm gone
To find another one
Now this is deep temptation
(Beat goes on till end)
