Lady, when you came to me
I was feeling blue
Blue just like your hair you see
Blue just like the moon.
But only when the moon is blue not when it is green
now that you are with me I am in a dream.

Oh yeah Marge your dreams can come true

Lady when you go away I feel like I could die
not like die like your hair is dyed
but die like Lady Di
and not like Di like her name is Di
but Die like when she died
but lady just like lady di, you're my princess tonight but
don't die.
no.
