Back to square one, back to the beginning when I first
fell for you
It seems like you went back to those times so I am
frustrated
You pretend not to know anything, pretend not to see
me sighing
I just see you smiling and I cant believe it so I just
pointlessly laugh

Why is the eraser in your head only used when its
about me?
My heart races, races toward you but Im still in the
same place, always the same

Why are you only smiling?
Youre not answering and just beating around the bush
When I cant give my love to anyone else but you

Cant you come closer to me a little more?
Cant you give me all of your heart?
I hope my love wont go back to the beginning, back to
square one

It seems like things are getting better but you get cold
again
I hate myself for having no choice but to let go of you
again today

I want to erase you now I promise myself this every
time but it doesnt work
Time passes, days pass but Im still in the same place,
always the same

Why are you only smiling?
Youre not answering and just beating around the bush
When I cant give my love to anyone else but you

Cant you come closer to me a little more?
Cant you give me all of your heart?
I hope my love wont go back to the beginning, back to
square one

My life without you is like an avatar without it's owner
Stop smiling as you pretend you know nothing, Im tired
of this game of push and pull
I need you, I miss you, I only have these childish words,
what should I do?
I want to hold onto you like a man now, please let me
love you

(You make me crazy) I wanna feel your love
(You make me crazy) Will you give me a chance?
(You make me crazy) Cant you feel my heart?
Feel my heart?

Why are you only smiling?
Youre not answering and just beating around the bush
When I cant give my love to anyone else but you

Cant you come closer to me a little more?
Cant you give me all of your heart?
I hope my love wont go back to the beginning, back to
square one
