### "Strangers Again"

Long before we ever touched  
Long before we knew too much  
I wish we were strangers again

Long before we ever kissed  
Long before I ever missed you  
I wish we were strangers again

I want yesterday to come back again  
Nothing is as simple as I once knew  
Why can't everything be the way it was  
Before the day that I lost you?

Long before the afterglow  
Long before our tears fell slow  
I wish we were strangers again

*[Chorus]*
