Sweet Jade, sweeter than the moon's ritard  
Circling round my heart, sending me away  
With an open mind, and a smile so wide  
I am petrified in the pale moonlight  
Attracted as I am to you  
And as easy as it would be to taste you again  
Something tells me I better shut my mouth  
And move onward towards wherever I can

With my head on tight and my eyes open wide  
I am content with the love I'm fed  
But what I don't get is that some other part of me  
Wishes I were with you instead

Oh Sweet Jade, sweeter than the moon's ritard  
Ain't it wild to be, in this world within me?  
The way you ease me down, wipe away my deepest  
fears  
Whenever you are near everything becomes so clear  
And as you wisk on through my blood  
Sending shivers in swoons and in floods  
Do you ever get a little tired, just a little tired  
Of controlling me, Of controlling this thing

With my head on tight and my eyes open wide  
I am content with the love I'm fed  
But what I don't get is that some other part of me  
Wishes I were with you, with you

With my head on tight and my eyes open wide  
I am content with the love I'm fed  
But what I don't get is that some other part of me  
Wishes I were with you instead

Ohhh, Sweet jade  
You're my sweet Jade  
How I love you  
How I love you  
I love you so good  
I love you so good my baby  
I love you so, I do
