oh girl
oh girl

girl understand that im more than just your friend
im waiting for your love
please take my hand
im tired of just words
can you show me your love is real
i wanna hold you
can i show you juz how i really feel?

oh lady, you are my love baby
constantly thinking of you daily
wont you stay right here next to me

ooh lady, you are my love baby
constantly thinking of you daily
wont you stay right here, right here next to me

Girl understand that im more than just your man
im waiting for your love
please take my hand
im tired of just words
can you show me your love is real
cuz i wanna hold you
can i show you just how i really feel?

ooh lady, you are my love baby
constantly thinkin of you daily
wont you stay right here, right here next to mee-eee
