Oh I Hope you can Understand...
I thought that I would never see you again,
It's probably all over my face,
I Bottled up all the Numbers in my hand, and thru them
far away...
And never Clife again...
I'm sorry that I seem a lil amazed
You don't know how much I missed you.

Everything, Every time Every thought of you stays on
my mind
I put that on everything, s' on everything
I put that on everything, s' on everything
Make sure that I didn't change my number so I can stay
easy to find
So when we go again
I put that on everything, s' on everything
I put that on everything, I put that on everything
I put that on everything, Whoa...
I put that on everything, Whoa...
I put that on everything, Whoa...
I put that on everything, Whoa...

(Whoa...)
So, me apologizing again
As I look into your eyes anticipation roles (Anticipation
roles)
The thankful Flash back remind me
That it's because of you that I remain full of hope...
I still I cannnn't let you go...
I didn't know how much I needed you

[Chorus: Lil Diff]
Everything, Every time Every thought of you stays on
my mind
I put that on everything, I put it on everything (I put on
everything)
I put that on everything, I Put it on everything (I put it on
everything)
Make sure that I didn't change my NUMBER! so I can
stay easy to find
So when we go again

I put that on everything, s' on everything (everything)
I put that on everything, I put that on
everything (everything)
I put that on everything, Whoa... (I put it on everything)
I put that on everything, Whoa...
I put that on everything, Whoa... (what more can I say?)
I put that on everything, Whoa...
I put that on everything, Whoa... (I put it on everything)
