"Our Natural Love"

Visit "[Our Natural Love](#)" on MotoLyrics.com

I can't stop the rain from falling
I can't stop the storm
But I can make you happy once more
Your strength was taken by the wind
Your will, smashed by rocks
My river of love will never stop

I need you to know how much you mean to me
So let me know how can I make you see

Spring's lovely... the flowers and the trees
Summer's callin'
I want you back and wanna live this naturally

You're the only one who bets your life and choose the
path you wanna walk
You're the one who makes your decisions
If you want my love, I promise to be your lover
If I'm the one, It's something you'll discover
Please let's try
I'll show you why

I need you to know how much you mean to me
So let me show you exactly how I feel

Spring's lovely... the flowers and the trees
Summer's callin'
I want you back and wanna live this naturally

You can call it my love
You can call it your love
I will call it our love
It's a natural love

You can call it my love
You can call it your love
I will call it our natural love
