Pre-Verse:

Where lost inside our memories  
And let it take control of all  
All that has been done, has now been damaged  
With a mindless soul, we keep on walking the earth  
Now it's done, help is too late, your mind is lost in  
reality

Verse:

The time has come, time to prepare everything set  
It's now been done, let's wait for all the things to  
spread  
My life gets right, by evoking what I'm wondering  
The spells are gone, up into open wildness

Chorus:

While the witches are casting spells,  
And evoking our senses  
Life passes by, and tells us right  
While standing in a circle  
With both hands up  
You're too late, there's no way to stop

Verse:

It's now or never, lets put the words right into rhyme  
Put them all together, just before the moon rises into  
shine  
Start our devotions, and start the time for evoking this  
This unknown power, which leads us to our happiness

Chorus:

While the witches are casting spells,  
And evoking our senses  
Life passes by, and tells us right  
While standing in a circle  
With both hands up  
You're too late, there's no way to stop

[Break]

Verse:

The end has reached, the end of evoking our spells  
We thank the gods, for giving us their powers  
End of our calling, and stop the words from doing  
harm  
It's time to quit, quit with all the enchantments

Chorus:

While the witches are casting spells,  
And evoking our senses  
Life passes by, and tells us right  
While standing in a circle  
With both hands up  
You're too late, there's no way to stop
