Pre-verse:

It's just one step, let's get it on
Take one step back, before I go on!
Now it's the time, to several
All sins combined

Verse:

Now it's time to face the truth,
Began to wonder live,
It's time for you,
To face the rhythm of death,
In silence you will wait, until the end of the day!

Verse:

Now we're here again you'd see,
To face the game of loyalty,
And this is not the end of time,
Still not the time to fight,
I will live until that day, the day you took away!

Chorus:

You got it all, all to survive
This game of life
The time to rise, rise for us
Take those steps
It's the last thing you can do, before you die!

Chorus:

This game of life
The time to rise, rise for us
Take those steps
It's the last thing you can do, before you die!

Bridge:
The end of life
Because you didn't took those steps
Right into dark
It was all the opposite

You went out of time,
Now it's Time to reveal your soul,
No place to hide,
There's no more time for sorrow!

Chorus:
You got it all, all to survive
This game of life
The time to rise, rise for us
Take those steps
It's the last thing you can do, before you die!
