Verse:

Fear your death, Silence is about to shatter  
Wandering dreams have lost in eternity  
and your last days are counting day by day  
and fear what you've been afraid off!

Chorus:

Don't follow your dreams in the night  
Find a way trough living  
Follow bad ways blind sight  
while the good has been out given  
this is a Taste of Blood  
For the hunger in my mind

Verse:

Passions streaming into your bleeding veins  
Hateful creatures lost your counted days  
Shattered by torture, doesn't take your pain away  
Fear you're live before it's all took away

Break:

You're heart is bleeding out  
Times ticking while you shout!  
Murdered by the beast inside your killing mind

Never got away

Because you took the wrong way  
His power means a lot to me it's like dignity

Bridge pt.1:

Find a way of making sense to me,  
It's only a life thrown away,  
And all the memories would never be  
Because they took away

Bridge pt.2:

Fear your life, take it outside,  
while waking up the demons inside your life  
there's got to be a blasphemy  
Fear for them, and get away!

Verse:

I follow you in your dreams!  
I'll make your heart bleed, more than you'll ever see!  
My patience's fading, while taking your life away!  
Silence is your own way!

Chorus:

Don't follow your dreams in the night  
Find a way through living  
Follow bad ways blind sight  
while the good has been out given  
this is a Taste of Blood  
For the hunger in my mind

Verse:
