she said that she was afraid  
she said that she was alone  
she said that she was a waste  
she said that she was alone

and all the time im saying this

hey hey, does the moonlight shines the way to youre  
star  
by the time you floating away  
hey hey, this society aint scaring me  
i can find my own way

im thinking whyx2

she said please i wanna live  
she said that she was alone  
she didn't have mutch to give  
thats why this girl was alone

all the time im saying this

hey hey, does the moonlight shines the way to youre  
star  
by the time you floating away  
hey hey, this society aint scaring me  
i can find my own way

im thinking why don't we care  
do you dare to meet that guy  
i don't know so i go

hey hey, does the moonlight shines the way to youre  
star  
by the time you floating away  
hey hey, this society aint scaring me  
i can find my own way
