[Tite]

The mood is right, the lights is low  
Fingers running down your back, all nice and slow  
Now kissing your neck, mind filled with sex  
In between your thighs, got you dripping wet  
Now I'm touching you, I got a lot of lust for you  
Dick standing at attention, wanna fuck with you  
And what we do, everythang front to back  
Tongue kissing while we clutched, now what's up with that  
Kissing your hips, move down licking your lips  
Everything you ever missed, baby girl that's it  
Now picture me pushing, in and out feeling my wood  
Legs crossed up the spread, and the feeling is good  
Flipping you over, face down beating it up  
Head board bout to break, but I ain't easing up  
I'm certified, with the tip of the tongue  
Leaving you sprung, got your body shaking while it flow with cum  
I'm the one, magic stick Tite's the Don  
Touching every part of you, cause the night is young  
Don't wipe my sweat, that's what I call the nicest sex  
Fro my mouth to my dick, I'm the nicest vet

(\*talking\*)

Yeah, this here for all my ladies  
That thug love, you know they love us gangstas  
Can't live with us, but hate to live without us
