# "Bring Change"

Visit "[Bring Change](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You know the time and place is right,  
Best to leave all adversity behind  
Don't let them hold us back this time  
You got to change  
We got to change  
And if you open up your mind  
You'll see that everything exists inside  
Maybe we'll overcome the fight  
You got to change  
We got to change

You got to, we got to  
You got to help us bring change  
You got to, we got to  
Learn to connect and bring change

You got to, we got to  
You got to help us bring change  
You got to, we got to  
Learn to connect and bring change  
To bring change  
To bring change  
To bring change

You got to, we got to  
You got to help us bring change  
You got to, we got to  
Learn to connect and bring about change

You got to, we got to  
You got to help us bring change  
You got to, we got to  
Learn to connect and bring change  
To bring change  
To bring change  
To bring change
