[Verse #1]

So who am I today
I'm caught beneath the shadow
Well, nothing I can say
For who I'll be tomorrow
Just tie me downward bound
Throw me on the tracks
But you still wanna run me over
And when I close my eyes
She pulls me to the side
To tell me it ain't over

[Chorus]

Cos I'm not lost
I just want you to find me
Cos I'm not lost
I just want you to find me

[Instrumental]

[Verse #2]

So what is going on
Someone told me I was strong
Cos I am not myself
And myself is not my own
So cover me in red
Raise me overhead
But you still won't see me there
And when I close my eyes
She pulls me to the side
To tell me that I'm near

Mmm

[Chorus]

Cos I'm not lost
I just want you to find me
I'm not lost
I just want you to find me
I'm not lost
I just want you to find me

I'm not lost
I just want you to find me

[Instrumental]

[Ad-Lib]
Yeah...
Yeah, yeah...
Won't you find me
Yeah, yeah

[Repeat Verse #1]
So who am I today
I'm caught beneath the shadow
Well, nothing I can say
For who I'll be tomorrow
So tie me downward bound
Throw me on the tracks
But you still wanna run me over
And when I close my eyes
She pulls me to the side
To tell me that I'm over

[Chorus]
Cos I'm not lost
I just want you to find me
