Hmmm---

It's taking all your mind
To get over all this strife
Don't let them tell you how to treat your life
But as sunshine brings the day
And the darkness starts to fade
Won't you stand up, rebel
Won't you show them you know how

[Chorus]

Won't you rise up
Won't you rise up
Won't you rise up
Baby, it's a revolution

[Instrumental]

Calling out to you
Stand up for what is true
Don't be afraid to fight
You gotta stand up for your right, yeah

I'm calling out to you
Stand up for what is true
Don't be afraid to fight
You gotta stand up for your right

[Chorus]

Won't you rise up
Won't you rise up
Won't you rise up
Baby, it's a revolution
Won't you rise up
Won't you rise up
Won't you rise up
Baby, it's a revolution

[Instrumental]

It's taking all your mind

To get over all this strife
Don't let them tell you how to treat your life
But as sunshine brings the day
And the darkness starts to fade
Won't you stand up, rebel
Won't you show them you know how

We'll rise up
Whoa---
Stand up
Whoa---
Rise up, rebel
Show them you know how

[Chorus]
Won't you rise up
Won't you rise up
Won't you rise up
Baby, it's a revolution
Won't you rise up
Won't you rise up
Won't you rise up
Baby, it's a revolution

Whoa, whoa, yeah

Calling out to you
Stand up for what is true
Don't be afraid to fight
Baby, it's a revolution
