Don't wait up  
Don't wait up  
I tried to hurt you as hard as I could  
using words not fists using words not fists  
I am so scared, too insecure, inside my little cage I  
reassure myself  
That I am all alone and let my head  
believe what my heart already has received.

Don't wait up  
Don't wait up  
I tried to hurt you as hard I as I could,  
using force not strength using force not strength  
I am so scared, too weak inside my little brain I  
reassure myself  
That I will never be alone,  
I must let my head believe what my heart already has  
received.

My love I'll bash my head in,  
My life I'll wrap you up in.  
My heart I've set you up against  
My fear ready to tuck you in.  
My chest where all the light is hid  
For you to lay your tired head to sleep  
And dream in the quiet colours of our hearts too much I  
know I know  
It's you it's you it's you. (x 4)

I cut my heart open after santa let the guilt crawl into  
your mouth????  
I'm your truth you be dare. (x8)

My seasons are awake like copper and silver like  
August illusions both of flashes of light  
I'll build a temple out of my body where you can lay  
yourself down  
And take all your glory and gold and fashion it into  
your crown  
So my lips will cover you in kisses  
My life will be your truth your dare

I'm your truth you be dare. (x8)

Don't wait up (don't wait up, don't wait up) (x8)
