You were my try and
You were my try and
You were my try and true (x2)

My heart in my chest is beating
Your name in my head, I'm repeating
My heart in my chest is beating,
Your name in my head, I'm repeating

You were my try and
You were my try and
You were my try and true

And in a dark valley
I keep my eyes closed
In some lonely place
Land of tears

With you by my side
I'm not so alone
With you by my side
I find my way home
With you by my side
I'm not so alone
With you by my side
I find my way home

You were my try and
You were my try and
You were my try and true (x4)
