I never saw it coming  
It never gave warning  
I never knew something to be so real  
I'm taken by the jet stream  
I'm leaving like a day dream  
Or could it be I'm changing the century

I know  
Gotta leave it behind  
I know  
I've made up my mind

I wanna feel  
I wanna really know  
I gotta be the one now  
To tell you that you'll forever shine

I wanna feel (Wanna feel)  
I wanna see the sun (See the sun)  
I wanna be the one now  
To tell you that you'll forever shine

I'm ticking like a time bomb  
Tripping over my soul on  
I'm heading for the coast and most of all  
There's no turning back  
Give me something to believe in  
And stop this shit that I've been reading  
And lay it down turn in turn on  
And let it be revealed

I know (I know)  
Gonna leave it behind  
I know (I know)  
I've made up my mind  
Yeah

I wanna feel (Wanna feel)  
I wanna see the sun (See the sun)  
I wanna be the one now  
To tell you that you'll forever shine

Shine  
Shine

I never saw it coming  
It never gave warning  
I never knew something to be so real (Be so real)

I wanna feel  
I wanna really know  
I gotta be the one now  
To tell you that you'll forever shine

I wanna feel (Wanna feel)  
I wanna see the sun (See the sun)  
I wanna be the one now  
To tell you that you'll forever shine  
Shine

Let it shine  
Yeah  
Shine  
Oh the sun shine on you  
Let it shine  
Shine
