### "Light My Way"

Bring a brighter day  
Help me find my way  
Searching for a voice  
Make the right decision  
Got to hold on for a better day  
Got to find the truth to lead me to You

You take me on to a higher ground  
I'll follow You - light my way  
You picked me up from lost and found  
I'll follow You - light my way

Look and keep on looking  
And I'll know you'll find  
that the truth your searching for is a peace of mind  
Satisfy your yearning to find love  
Gotta be adjusting your journey to be lookin' above
