Lord I hunger and thirst
for Your presence
God I'm desperate to see You move
and my soul can't contain it
I need Your spirit in me
I need more (x3)
Come and overflow
Come and overflow

God I thank you for making it certain
that You have a purpose for me
only You can fulfil it I know
It's in Your hands
and in Your heart
and in Your plan
right from the start

Come and overflow
Come and overflow
Come and overflow in my soul

Windows of heaven are opening...
