[Talib Kweli]

Yo, we're going to have the word love  
in many different languages translated all through the  
track

So, whenever you hear the word love  
Know that, it's going to be in a different language  
The language of love cannot be translated, yo

Love is blind, you just see bright light  
You up in the club feelin' the night life, lookin' for the  
right type  
Blood rushing to your heart making it beat  
When she swept you off your feet and made it  
complete  
You know the plan you had to conquer the world  
Thinking you Scarface, looking for that perfect girl  
And now you found her  
Started with romantic, then got to frantic  
Then things that's normally small become gigantic  
Now y'all sinkin like the Titanic here come the panic  
Bein with you like a habit without you I can't stand it  
It's tragic when you wonder when you lost that magic  
Without understanding that you never had it try to grab  
it

In the bed gettin a nut off, communication cut off  
Getting mad cause you turned or wondering where she  
shut off

Constantly comparing you to someone in my past  
We don't smile anymore, and we argue over cash  
Advance to that physical shit  
See what happens if you keep talkin  
See what happens if you lay a finger on me motherf...  
Yo, see what I'm sayin'

It's like one big mind game that everybody playin and  
Niggas say bitches is trife, bitches say niggas is  
We just don't understand our fundamental differences  
I'm still learning though, actually  
I just do what come naturally, naturally, naturally

(Chorus):

L'amour n'a pas de, frontiere (Love has no boundaries)

Restes car je t'aime comme tu es (Stay because I love  
you as you are)  
J'ai traverse l'ocean du verbe (I crossed an ocean of  
words)  
Et je t'ai trouve (And I found you)

[Talib Kweli]

Women thrive on emotions, men refuse to  
acknowledge  
So when we arguin nobody win  
Words get in the way time and again  
Sticks and stones break your bones words break your  
heart  
Whether you in touch with that part or not say "word"  
Words are weapons for the revolutionary  
Used for evil make the situation very scary  
Word up, but love is brave  
It flies in the face of fear  
Yo, wherever you want to go love'll take you there  
Let's go, you know a flower that grow in the ghetto  
Know more about survival than the one from fresh  
meadows  
It got love for the sun, that's where I'm comin from  
Spit in this fashion cause I love rockin over drums  
Word (te quiero) I put my love into my music  
If you with me then you love how I do it  
If my heart you're livin' in your ocean I'm swimmin' in  
Never drowning got me floatin' watching you in slow  
motion  
Love potion overdosin approachin  
The explosion of my senses everyday without your  
heart  
is like a sentence in jail  
Trust I'll always be mentally free  
You got the key to let it out I'll show you how it could be  
Love {\*different language\*} it ain't nuttin but a word  
A chicken ain't nuttin but a bird  
Yo, yo, yo

(Chorus):

L'amour n'a pas de, frontiere (Love has no boundaries)  
Restes car je t'aime comme tu es (Stay because I love  
you as you are)  
J'ai traverse l'ocean du verbe (I crossed an ocean of  
words)  
Et je t'ai trouve (And I found you)

[Talib Kweli]

Some of y'all in love with that material but  
love enter my life like a miracle and  
It reciprocal that's why I'm feeling you love

We exhibit our natural behavior  
Like making love under the moon in Jamaica  
Get you so hot you call the name of the creata  
The morning we hop back into action again  
Up on the wall lovin how the sun blacken your skin  
Remember when we explored the beach  
Swam in the ocean and saw beneath  
How the colors of the coral reef looked like the illest  
floral peice  
That's what your beauty remind me of  
It's hard to find a love like ours, taking it high above  
Them other duns try to spit game but, I dont sweat it  
though  
Know in my heart that we connected so I let it go  
Now if they call you out your name and that's a  
different thing  
Anything but Queen I'll go to war like a King  
Your friends sweat you cause you aint got a band  
But they dont understand  
Some things is meant to stay between a woman and  
man  
And they ain't privy to it so they try to get into it  
Both you and me see through it so the way we flow is  
fluid  
We speak the love language, they speak from pain and  
anguish  
Some don't love theyselves so they perception is  
tainted  
Out they joint like "Shit, he payin for your rent" missin  
the point  
When you rub me into your skin just like an ointment  
It's more than pillow talk, it can't be translated  
Learn how to speak it, and become emancipated  
It's a language

Universal love...

(Chorus):

L'amour n'a pas de, frontiere (Love has no boundaries)  
Restes car je t'aime comme tu es (Stay because I love  
you as you are)  
J'ai traverse l'ocean du verbe (I crossed an ocean of  
words)  
Et je t'ai trouve (And I found you)

Love love love love, love, love (Repeated)
