

## Skylit Drive, A "Ex Marks The Spot"

Visit "[Ex Marks The Spot](#)" on [MotoLyrics.com](http://MotoLyrics.com)

This is when your heart stops  
Aren't you just dying to be here  
Lose yourself, lose yourself, lose yourself

Light this direction  
March on the wicked one  
I saw you for what you're not inside

Who do you think you are?  
I won't be with you  
Who do you think you are?  
I won't destroy myself  
Not for you  
Found such a perfect way to lie  
You said you found a better taste than God  
Tell me what you see  
Look at me

You found a secret  
You'd kill it just to keep it  
Believed you and what you say  
I never thought you'd find a way

You found a secret  
You'd kill it just to keep it  
Believed you and what you say  
I never thought you'd find a way

Aren't you just dying to be here  
Lose yourself, lose yourself, lose yourself  
This is when your heart stops

I caught myself at the scene of the crime  
What could I have done to get this far?  
What could I have done  
Displaying lines unquestioned  
I'm fighting just to do what is right  
Enclosed and shaking  
I can tell you're breaking  
So break in  
Tell me what you see

Look at me

You found a secret  
You'd kill it just to keep it  
Believed you and what you say  
I never thought you'd find a way

You found a secret  
You'd kill it just to keep it  
Believed you and what you say  
I never thought you'd find a way

I've seen the best in you, I've seen the best in you  
For what it's worth I'm consumed and confused by the  
truth  
when the day is done, when the day is done

I'm playing this one close to my chest  
I'll never let go  
Say you'll never let go  
Stealing a part of me and claim it was the best  
I'm playing this one close to my chest  
I'll never let go  
Say you'll never let go  
Get down on your knees and show me how you please

This is when your heart stops  
You found a secret  
You'd kill just to keep it  
Believed you and what you say  
I never thought you'd find a way

You found a secret  
You'd kill just to keep it  
Believed you and what you say  
I never thought you'd find a way

The moments get slow the further you go  
I'll pull you close but never show I'd kill it just to keep it  
The moments get slow the further you go  
I'll pull you close but never show I'd kill it just to keep it  
The moments get slow the further you go, the further  
you go  
The moments get slow the further you go  
I'll pull you close but never show I'd kill it just to keep it  
The moments get slow and you know I'd kill it just to  
keep it  
don't you know , don't you know  
I'd kill it just to keep
