Run, for your life now
Don't you see your princess is gone?
Pull your vengeance aside
Let's make it rain blood tonight

Collide your sword with mine, I'll send your soul
To the hell where it came from
By this I know you'll never set your eyes
On a quest you can't survive
It's no surprise your head hangs from my heads
Your mouth can't sin or lie

Cut through the limbs
Stab through the enemies eyes
Any last man will die
Cut through the limbs
Stab through the enemies eyes
Any last man will die

She, watching the sky burn oh how it burns
Run for the skylines, run for the skylines darling
Follow the light of the moon just to stay alive

Forgive me
For tomorrow
If I'm late
I've died before I wake

Cut through the limbs
Stab through the enemies eyes
Any last man will die
Cut through the limbs
Stab through the enemies eyes
Any last man will die

What's left for you
You, you wanted life
I showed you love
Conserve protect your life
Conserve your life
Conserve protect your life

Conserve your life

Your life is my well being
And if it lay in shadows then so be it
But left it be known that this soldier will not rest a day
Until he lays in the glamour and the grace of his bride
I will not rest one day until my victims blood is shed
Up and down the shorelines
Up and down the shorelines

For gods sake please
Don't you forgive me
I will wait for you
For gods sake please
Don't you forgive me
I will wait for you

Race the sun
Pray for nothing warm
