Identity is on fire  
I'm afraid I am the one you know  
Connect your soul with mine

My heart will explode  
Or is this all in my head?  
Wipe the sweat from my eyes  
I'm killing myself from the inside out

I've seen this place before  
Reach for the chemical  
I can hear you screaming,  
But I can't make out the words

The worst is yet to come  
Send me an angel  
Face to face with my worst enemy  
(You never got me in this way)  
(You never fucking got me in this way)  
The worst is yet to come

Set aside the pain  
Contradict your disillusion  
I never thought it could get this far  
Below the (surface) surface  
Through the dead (below)  
Will I ever reach it?

Wipe the sweat from my eyes  
I'm killing myself from the inside out

I've seen that look before  
Reach for the chemical  
I can feel you breathing  
And I need this just once more

(How did I end up this way?)  
(Oh my god, how the fuck did I end up this way?)  
The worst is yet to come  
Send me an angel  
Face to face with my worst enemy

The worst is yet to come

Set aside the pain  
Contradict your disillusion  
I never thought it could get this far  
Below the (surface) surface  
Through the dead (below)  
Will I ever reach it?

You are my chemical (You are my chemical)  
Send me an angel (Send me an angel)  
You are my chemical (You are my chemical)  
Send me an angel (Send me an angel)

You are my chemical  
Send me an angel  
You are my chemical  
Send me an angel

Set aside the pain  
Contradict your disillusion  
I never thought it could get this far  
Below the (surface) surface  
Through the dead (below)  
Will I ever reach it?

Wake up and say, "You're not alone, you're not afraid"  
Wake up and say, "I'm not alone"  
Wake up and say, "You're not alone, you're not afraid"  
Wake up and say, "I'm not alone, I'm not afraid"
