"On Our Way"

Visit "[On Our Way](#)" on MotoLyrics.com

Were on our way
At last, we are
Someday well reach the stars

Once we saw a future
Filled with our fears
We knew the past
Had so many tears
We couldnt see a better day

Now we know that there is
A bright future here in store
With the possibility
Of so much more

On our way
We can make it
Well reach for the rising sun
On our way
Every day into the new millennium
On our way
Well discover the secret of who we are
On our way
Well reach out and touch a shooting star
Now that were on our way

Were on our way
At last, we are
Someday well reach the stars
