it seems more and more the future's filled with
uncertainty we seem to find ourselves living in an age
of anxiety i know, we go, on living fearfully the leaders
of the world won't realize their responsibility i say, i say
will we get blown away can we go on existing hoping
for another day one day, one day, we can get blown
away or we can stop the madness before it's too late
and we get blown away you tell me that you're scared
well so am i we'll never get any answers asking the
question why we can't, romance, keep living day to day
we all must find some way to overcome the apathy i
know, we go, on living fearfully we can't, romance,
keep living day to day i know that many say there
seems to be no way there's no deceiving me
appearance is not reality death is the end of life ah, why
should life all labour be let us alone; time driveth
onward fast let us alone; what is it that will last? let us
alone; what pleasure can we have to war with evil? is
their any peace
