you think you know me you don't know shit talking
about me have we even met don't wanna hear another
word about me from you and if i do you'll curse the day
you opened your mouth oh just let me be don't get close
stay away from me i don't want your sympathy don't
need your help this is my life get the hell out you don't
need violence to hurt someone there are many ways to
kill without taking a life the only hurt greater than
heartbreak is death but at least when you die its usually
quick i don't need anyone to tell me all the things i
could have done if you're a friend you'll leave me alone
