Dear Felicia
I've wanted to meet ya
For years now
Cause I know you've been round
I say, you've grown
I would not have known
That you would get your mother's eyes
Just as strong and kind
Unless I'd seen ya
Felicia

It's been too long
Since I been gone
Remember me
Still friends, aren't we
Got so much to tell you
But I can't get through
That's why I'm writing you this song
Hoping that you'll see why I can't be with ya
Felicia

[Chorus:]
I want you to know
I never wanted to go
I never wanted to leave ya
Felicia
I'm sad I let you down

Once you've grown up
When you know enough
About grown love
You might condone us
But I can safely
Assume that you hate me
And I know that I can't
Expect you understand how I miss ya
Felicia

[Chorus:]
I want you to know
I never wanted to go

I never wanted to leave ya
Felicia
I'm sad I let you down

I know you'll know one day that love's a painful game to
play
But still it's worth it just the same
I know you'll wanna blame your pain on our mistakes
But there's so much love
You just gotta trust love
That'll make it easier
Felicia

[Chorus:]
I want you to know
I never wanted to go
I never wanted to leave ya
Felicia
I'm sad I let you down
