"How Could You"

I don't believe it
What a nerve
You or her, don't know who is worse
Is this what you do
Your way to hea
Is this your way to get back at me

Cause I lost you
But never knew I'd loose her too

[Chorus:]
Though it's true that we were through
How could you
How do you sleep at night
And I lied when I said I'm still fine cause
Though we are through
Boy how could you

When I left you
I felt so bad
Cause being alone was driving you mad
And I could see you
From 'cross the street
In your room crying yourself to sleep

But now I see how
You deserved it then
My friend

[Chorus:]
Though it's true that we were through
How could you
How do you sleep at night
And I lied when I said I'm still fine cause
Though we are through
Boy how could you

Of all things that I've once cared about
You're the one I'm most glad to get out

But now I see how

You deserved it then
My friend

[Chorus:]
Though it's true that we were through
How could you
How do you sleep at night
And I lied when I said I'm still fine cause
Though we are through
Boy how could you
