"The Greatest Gift"

Visit "[The Greatest Gift](#)" on MotoLyrics.com

It's been a pleasure, it's all been joy
Though far away in distance you'll be close in soul
And I'll treasure every moment spent
Just take a look above you
You'll be watching the same moon and stars as I do

[Chorus:]

The greatest gift of them all
Is knowing someone just like you
Who puts a smile on my face
And helps me along the way
When I am blue
The greatest gift of all is you

And when the winds blow from the north
They bring to you my thoughts of hope and love
And if you're ever feeling alone
Just take a look above you
You'll be watching the same moon and stars as I do

[Chorus:]

The greatest gift of them all
Is knowing someone just like you
Who puts a smile on my face
And helps me along the way
When I am blue
The greatest gift of all is you
