Time makes things go away
Yesterday doesn't plan today
Rumors fly anyway,
I don't hear what they say

See,
The lonely girl,
Standing before me
Confused,
Her mind is bruised
She fails to
See,
Don't care,
What they expect you to be

All the heartache you hide,
Let go of all the sad inside
Friends changing to fast,
Find the ones that last

See,
The lonely girl,
Standing before me
Confused,
Her mind is bruised
She fails to
See,
Don't care,
What they expect you to be

Problems weighing on her mind,
Too young to know what she's trying to find
Leave your fears behind,
Be strong,
Use your own mind

See,
Don't care,
What they expect you to be
