"One Step"

Dear props on the sidewalk
It would rain till you flood away
Ah

The fire in your eyes
That burns my love away
Ah

One step away and I be forever gone
One step away from you
One step away from you and I'm on the run
One step away from you

Thunder trough your streets
Thunder tough your heartbeats
Ah

Remember the ocean
Where I left you to drown again
Ah

One step away and I be forever gone
One step away from you
One step away from you and I'm on the run
One step away from you
