"Save Me From Yesterday"

Visit "[Save Me From Yesterday](#)" on MotoLyrics.com

Did you ever stare right into the sun
Knowing it may be for the last time?
Did you ever dance to the worst music
With the smell of this up your nose?
Did you ever look into the face of your biggest love
Lying your heart out into her eyes?
Fire in your head, you could never put out

If you ever did, please help me out
And save me, save me from yesterday

Did you ever notice your friends all gone
Wandering drunk away from home?
Did you ever see your blood in the snow
Under the yellow naked streetlight?
Did you ever look into the face of your biggest love
Lying your heart out into her eyes?
Fire in your head, you could never put out

If you ever did, please help me out
And save me, save me from yesterday

Could you save me, save me from yesterday?
Could you save me, save me from yesterday?
Please save me, save me from yesterday
