"Do Not Love Me Carefully"

Hold me deep within your dream sleep
And fill me far beyond this carnal hour
Know that I will wake you often
Place my hands upon your soul

[Chorus]

Oh, heart wife, if you are to love
Do not love me carefully
And if you are to listen
Do not love me carefully
Do not love me carefully

Let your joy burn through my living flesh
Strike, full-measured with your fire
Full faced let me lie within your love
And cross far beyond man's staley desires

[Chorus]

With open palms pull at my skin
And from these dusty lips
Moisten my every need
Drink to me with searching eyes, uncover me
And Do not love me carefully

With open palms pull at my skin
And from these dusty lips
Moisten my every need
Drink to me with searching eyes, uncover me
And Do not love me carefully
Do not love me carefully

Oh, hear this, hear this echoed heart!
Do not love me carefully (oh oh oh)
I would not love you carefully
