"Great Escape"

Well don't bother waking me up today
'Cause I already know the sights, the sounds, the
touch, the smell, the taste
Yes it's a brutal world waiting outside that front door
for me
I might be better off to cover up my head
Not breathe so loud perhaps they'll think I'm dead
Or at least for a little while and they might leave me
alone

[Chorus]

They say it's all apart of life, the structure's good
The hell they're right
And I can't take this anymore
It's just about time when I make my great escape
From the world that keeps on calling me
The script that's shoved in front of me
In time, all in good time

Classified sources tell me I should stay in school
Move in and out of knowledge, the in and outs of lovin'
too
Then I won't owe a thing when I turn 65
So I won't waste my tiem getting things that I don't
need
Incarerated by a system of superficial greed
Just give me a plow on the rooftop to plant my seed

[Chorus]

They say you work and then you die, so what are you
working for?
Now that can't be right
And I won't listen anymore
It's just about time then I'll make my great escape
From the world that keeps on calling me, the words of
T.S. Elliot
In time, all in good time

I don't wanna go, I don't wanna know
You can't make me leave, I'm happier alone
Murder at the door, a final retreat

I can't take it anymore

So just for today I don't wanna know anything new
No cognitive retention, no body's point of view
And I can see them all walking away when they hear the
news

[First Chorus]

Yes all in good time, some day I'm gonna be free
Some day I'm gonna be free, some day I'm gonna be
free
