Not gonna keep up my guard to prove I'm hard  
or put on some act to earn your respect  
cause that's not the type of life I want to live  
and that's not the type of energy I want to give  
I guess I'm not cool according to you  
for having some friends who don't seem to fit in  
well that's not the type of life I want to live  
and that's not the type of energy I want to give  
I guess you don't see cause you seem to be  
real tough but living in misery  
well that's not the type of life I want to live  
and that's not the type of energy I want to give
