I just can't get through you despite all the ways I try
or any of the things I do maybe I'd better off talking to
a wall
cause you ain't making any sense at all I'm walking and
I'm talking
and I'm trying and I'm lying but I just ain't getting
through to you
am I just wasting all my precious time cause I ain't
wasting a breath
on you or any of your kind if you had any brains you
would open
your mind but I guess you're just afraid of what you
gonna
find it's a malfunction
