And I wonder how I made it through  
I hope you don't let others go so easy  
You wanted what I couldnt be

I know we tried, you couldnt stand  
It's not that we couldn't have  
I know I left, you couldn't guide me through  
Or understand  
It's not that we couldn't have

So it's been said that I've been over this since then  
Scars remain, and promises leave little closure

I know we tried, you couldnt stand  
It's not that we couldnt have  
I know I left, you couldnt guide me through  
Or understand  
It's not that we couldnt have
