### "A Broken Promise"

Visit "[A Broken Promise](#)" on MotoLyrics.com

Glimpses of the future  
Ride out past familiar  
Success becoming failure  
Meaning everything you say  
Living like today's the day  
The hopelessness won't fade away  
You're on your own

Head from a broken promise  
Held you back

Taking on your own control  
Finding out what you don't know  
Leaving what took its toll  
Meaning everything you say  
Living like today's the day  
Hopelessness won't fade away  
You're on your own

Head from a broken promise  
Held you back  
It held you back

(A promise is broken)

I can't take this any longer  
I will die or become stronger  
I can't take this any longer  
I will die or become stronger  
I can't take this any longer  
I will die or become stronger  
I can't take this any longer  
I will die or become stronger
