Keep your mouth green
Let the Lord list, we put to silence
Lord I don't know
How did it come to this?

Keep your mind green
Let the Lord list, we put to silence
Lord I don't know
How did it come to this?

Girl, it's a long time when you're runnin'
Girl, it's a long time when you're runnin'

Keep your mind green
Let the Lord list, we put to silence
Lord I don't know
How did it come to this?

I don't know, I didn't try with you
Now the moon is bleedin' dry
The sun is weepy eyed
How did it come to this?

Girl, it's a long time when you're runnin'
Girl, it's a long time when you're runnin'

Girl, it's a long time without lovin'
Girl, it's a long time when you're runnin'
Girl, it's a long time when you're runnin'
