Alright... roll it

You know I...
never want a different way
never meant a different way
don't deserve this kind of pain
now that's just insight
never want a different way
never meant a different way
don't deserve this kind of pain
thats my way of life.
was I wrong?

But you didn't even care
about the pain I had to bare
in a world that we once shared

You know I...
never want a different way
never meant a different way
don't deserve this kind of pain
now that's just insight
never want a different way
never meant a different way
don't deserve this kind of pain
thats my way of life.
was I wrong?

When I told things had changed
that they could never stay the same
you tried to tell me you were wrong
but I knew it all along
you know that I could never be
who I used to be
I can still feel the anger building strong.
was I wrong?
was I all wrong?
